SUMMARY

Platform Engineer with 5+ years of experience designing and operating secure cloud and Kubernetes-based platforms for enterprise and regulated environments. Strong background in Kubernetes orchestration, CI/CD automation, infrastructure as code, and security integration (SAST/DAST, policy-as-code). Experienced in building internal platform products to enable developer self-service, improve system reliability, and enforce security-by-design.

WORK EXPERIENCE

MBBank(Military Commercial Joint Stock Bank)

Jun. 2022 – Present

Platform/DevOps Engineer

- Designed and operated Kubernetes-based internal platform for multiple microservices.
- Built standardized CI/CD templates reducing deployment time by **40%**.
- Integrated SAST/DAST into pipelines enforcing security gates.
- Implemented RBAC, network policies, and secret management.
- Mentored junior engineers in platform and security practices.

MBBank(Military Commercial Joint Stock Bank)

Dec. 2019 – Jun. 2022

Software Engineer

- Software Engineer transitioning to Platform Engineer, with strong experience in designing and building backend and production systems.
- Solid background in writing scalable, maintainable, and well-architected services for cloud-native environments.
- Actively worked with devops teams to improve CI/CD automation, deployment reliability, and operational readiness.
- Experienced in integrating observability and security considerations into application design.
- Motivated to grow into Platform Engineering by building systems that are reliable, secure, and easy to operate.

Vietsoftware International

Aug. 2018 – Dec. 2019

Software Engineer

- Designed and developed backend services with a strong focus on scalability, reliability, and production readiness.

PROJECTS

Homelab - Self-hosted project for personal hobbies

- Building self-hosted DataCenter at home
- Self-study about System Administration, Operation, Networking and Security
- Self-study about Kubernetes

Minimal Icon Pack

- Designed and released 100+ minimal iOS and Android icons from scratch
- Accumulated over **\$250 in sales** on Gumroad

CORE SKILLS

Platform & Orchestration : Kubernetes, Helm, Rancher

CI/CD & Automation : GitLab CI, Jenkins, ArgoCD

Cloud & Infrastructure : AWS, On-premise, Terraform, Ansible

Security & Compliance : Synopsys Coverity, Black Duck, IAM, RBAC, Vault

Scripting & Programming : Java, Bash, Python, Go, Groovy

Database & Messaging : PostgreSQL, MySQL, Kafka, Pulsar

Observability : Prometheus, Grafana, ELK

Collaboration Tools : Jira, Confluence, GitLab

EDUCATION

FPT Aptech

Advanced Diploma In Software Engineering (ADSE)

Aug. 2016 – Aug. 2018

FPT Aptech, HN

Hanoi University of Mining and Geology

Bachelor of Engineering in Software Engineering

Jun 2013 – Jan. 2018

HUMG, HN
